This worksheet helps you calculate a capital gain for each CGT asset or any other CGT event¹ using the indexation method², the discount method³ and the 'other' method (CGT asset held less than 12 months). It also helps you calculate a capital loss.

* In choosing between capital gain (a) or (b), remember that the CGT discount will not apply to (a) but it will reduce the amount of capital gain remaining after capital losses are deducted from (b). Group all of your worksheets according to the CGT asset or CGT event selected and transfer the capital gain and capital loss to **part 1** of the *CGT summary worksheet* (if required).
