

# Application for a continuing movement permission (non-export)

## WHEN TO USE THIS APPLICATION

Use this application to apply for (or amend) a permission to continually move goods from one licensed site to another if both of the following apply:

- they are excisable or excise equivalent goods (EEGs)
- no excise or customs duty has been paid on the goods.

You should also use this application to move other customable goods underbond if the owner deals with EEGs. If the owner doesn't deal with EEGs, you will need to apply to the Australian Customs and Border Protection Service.

We will only grant permission to move underbond goods to the owner of the goods or to an agent acting on behalf of the owner. It is a condition of approving the movement that ownership of the goods is not transferred during the movement.

The permission holder is responsible for any unaccounted losses and liable for an amount equivalent to the duty on those goods until the goods are accepted by the receiving premises. In the case of customable goods, the permission holder will also be liable for any goods and services tax (GST), luxury car tax (LCT) and wine equalisation tax (WET) applicable to goods that cannot be properly accounted for.
