Table of contents

- 1. Purpose 4
- 2. Temporary entry level profile defined 4
- 3. Temporary entry level profile default agreement..... 5

1. PURPOSE

This document defines the temporary entry level profile and provides a default agreement as referred to in Schedule 1 to the Superannuation Data and Payment Standard 2012 and Schedule 1 to the RSA¹ Data and Payment Standards 2013.

2. TEMPORARY ENTRY LEVEL PROFILE DEFINED

The temporary entry level profile:

- (a) supports one-way push for sending rollover messages coupled with receipt of any transmission errors;
- (b) requires that the receiver must have a fixed internet address and sending is restricted to normal business hours;
- (c) requires that the receiver must provide an available internet presence of 98% availability² during normal business hours;
- (d) does not require automated business-related error messaging. The user will rely on other processes³ outside the Standard for managing business-related errors;
- (e) requires UsernameToken based security to be employed;
- (f) must adhere to conformance requirements are set out in **Section 6.2, The AS4 Light Client Conformance Clause**⁴;
- (g) must support operation as the Responder.

¹ Retirement Savings Accounts.

² Availability will be measured by available uptime over any 20 business day period in which a rollover message should have been received.

³ For example, this may include exchanges via phone, email or other online channels.

⁴ See the **AS4 Profile of ebMS 3.0 Version 1.0**, Candidate OASIS Standard 013, 17 August 2012 ('AS4 Profile') at: <http://docs.oasis-open.org/ebxml-msg/ebms/v3.0/profiles/AS4-profile/v1.0/AS4-profile-v1.0.pdf>
