Ruling

CGT event A1 happened on the disposal of your shares in Silver Lake Resources Limited

7. CGT event A1 happened when you disposed of your SLR ordinary shares to Red 5 (section 104-10).

8. The time of CGT event A1 is on the Implementation Date (subsection 104-10(3)).

9. The capital proceeds from CGT event A1 happening to each SLR ordinary share is the market value of the Red 5 shares you received in respect of the disposal of the SLR ordinary share (subsection 116-20(1)). The market value of the Red 5 shares is worked out as at the time of CGT event A1.

10. You made a capital gain from CGT event A1 happening if the capital proceeds from the disposal of your SLR ordinary share exceeded the cost base of that share (subsection 104-10(4)). You made a capital loss from CGT event A1 happening if the capital proceeds from the disposal of your SLR ordinary share were less than the reduced cost base of that share (subsection 104-10(4)).

Availability of scrip for scrip roll-over for your shares in Silver Lake Resources Limited

11. Subject to the qualification in paragraph 12 of this Ruling, if you made a capital gain from the disposal of your SLR ordinary shares, you may choose to obtain scrip for scrip roll-over for the capital gain (sections 124-780 and 124-785).

12. Scrip for scrip roll-over cannot be chosen if any capital gain you might make from a replacement Red 5 share would be disregarded, except because of a roll-over (paragraph 124-795(2)(a)).

Status: **legally binding**

Consequences if you choose scrip for scrip roll-over for your Silver Lake Resources Limited shares

Capital gain is disregarded

13. If you choose scrip for scrip roll-over, your capital gain is disregarded (subsection 124-785(1)).

Cost base and reduced cost base of shares in Red 5 Limited

14. If you choose scrip for scrip roll-over, the first element of the cost base and reduced cost base of a replacement Red 5 share you received is worked out by reasonably attributing to it the cost base and reduced cost base (respectively) of the SLR ordinary shares for which it was exchanged and for which the roll-over was obtained (subsections 124-785(2) and (4)).

15. The Commissioner accepts a reasonable method of attribution would be to calculate the first element of the cost base and reduced cost base of each replacement Red 5 share by dividing the total cost bases of your SLR ordinary shares by the number of replacement Red 5 shares you received.

Acquisition date of shares in Red 5 Limited for discount capital gain purposes

16. For the purposes of working out whether a future capital gain from the Red 5 shares is a discount capital gain, the Red 5 shares you acquired in exchange for your SLR ordinary shares are taken to have been acquired on the date you acquired, for CGT purposes, the corresponding SLR ordinary shares involved in the roll-over (table item 2 of subsection 115-30(1)).

Consequences if you do not choose, or cannot choose, scrip for scrip roll-over for your Silver Lake Resources Limited shares

Capital gain is not disregarded

17. If you do not choose, or cannot choose, scrip for scrip roll-over, you must take into account any capital gain or capital loss from CGT event A1 happening on the disposal of your SLR ordinary shares in working out your net capital gain or net capital loss for the income year in which CGT event A1 happened (sections 102-5 and 102-10).

18. If you made a capital gain where roll-over is not chosen, or cannot be chosen, you can treat the capital gain as a discount capital gain provided that the conditions of Subdivision 115-A are met.

Cost base and reduced cost base of shares in Red 5 Limited

19. If you do not choose, or cannot choose, scrip for scrip roll-over, the first element of the cost base and reduced cost base of a replacement Red 5 share that you received is equal to the market value of the SLR ordinary shares you gave in respect of acquiring the Red 5 share (subsections 110-25(2) and 110-55(2)).

20. The market value of the SLR ordinary shares you gave is to be worked out as at the time when you acquired the Red 5 shares on the Implementation Date.

21. As a reasonable method of determining the cost base and reduced cost base of your Red 5 shares, the Commissioner accepts that you can apportion the total market

Status: **legally binding**

value of your SLR ordinary shares (worked out as at the Implementation Date) across the total number of Red 5 shares you acquired in respect of the disposal of the SLR ordinary shares on the Implementation Date (subsection 112-30(1)).

Acquisition date of shares in Red 5 Limited

22. If you do not choose, or cannot choose, scrip for scrip roll-over, the acquisition date of your Red 5 shares is the date on which those shares were issued to you, being the Implementation Date (table item 2 of section 109-10).
