- **This publication provides you with the following level of protection:**

This publication is a public ruling for the purposes of the *Taxation Administration Act 1953*.

A public ruling is an expression of the Commissioner's opinion about the way in which a relevant provision applies, or would apply, to entities generally or to a class of entities in relation to a particular scheme or a class of schemes.

If you rely on this ruling, the Commissioner must apply the law to you in the way set out in the ruling (unless the Commissioner is satisfied that the ruling is incorrect and disadvantages you, in which case the law may be applied to you in a way that is more favourable for you – provided the Commissioner is not prevented from doing so by a time limit imposed by the law). You will be protected from having to pay any underpaid tax, penalty or interest in respect of the matters covered by this ruling if it turns out that it does not correctly state how the relevant provision applies to you.

#### Context

1. Except where the item in the detailed food list indicates to the contrary, the goods and services (GST) status of an item has been set out on the basis that the food is not supplied as a dine-in or hot takeaway food or beverage item. The GST status is also provided on the basis that the requirements for the supply to be a taxable supply under paragraphs 9-5(a) to (d) of the *A New Tax System (Goods and Services Tax) Act 1999* (GST Act) have been satisfied.
2. The supply of food that is for consumption on the premises from which it is supplied, or the supply of hot food for consumption away from those premises is a taxable supply where the requirements for a supply to be a taxable supply under paragraphs 9-5(a) to (d) of the GST Act are satisfied.

#### About the Detailed food list

3. The Detailed food list provides details of the GST status of major food and beverage product lines.
4. Section 38-2 of the GST Act states that a supply of food as defined is GST-free.
5. Food is defined in subsection 38-4(1) of the GST Act to mean:
  - food for human consumption (whether or not requiring processing or treatment)
  - ingredients for food for human consumption
  - beverages for human consumption
  - ingredients for beverages for human consumption

- goods to be mixed with or added to food for human consumption (including condiments, spices, seasonings, sweetening agents or flavourings)
- fats and oils marketed for culinary purposes
- any combination of the above.

6. Food does not include:

- live animals (other than crustaceans or molluscs)
- unprocessed cow's milk
- any grain, cereal or sugar cane that has not been subject to any process or treatment resulting in an alteration of its form, nature or condition, or
- plants under cultivation that can be consumed (without being subject to further process or treatment) as food for human consumption.

7. Beverage includes water (subsection 38-4(2) of the GST Act).

8. However, not all food is GST-free. Subsection 38-3(1) of the GST Act states that a supply is not GST-free under section 38-2 of the GST Act if it is a supply of:

- food for consumption on the premises from which it is supplied
- hot food for consumption away from those premises
- food of a kind specified in the third column of the table in clause 1 of Schedule 1, or food that is a combination of one or more foods at least one of which is food of such a kind
- a beverage (or an ingredient for a beverage), other than a beverage (or ingredient) of a kind specified in the third column of the table in clause 1 of Schedule 2, or
- food of a kind specified in regulations made for the purposes of this subsection.

9. Accordingly, if the food products are listed in Schedule 1 of the GST Act, the food products will not be GST-free. Conversely, beverages not listed in clause 1 of Schedule 2 of the GST Act will not be GST-free.

10. The items contained in the list are for human consumption unless indicated differently.

11. The following table provides a history of changes made to this list.
