Participants may wish to refer to the ATO's Internet site at http://www.ato.gov.au or contact the ATO directly to confirm the currency of this Product Ruling or any other Product Ruling that the ATO has issued.

#### Preamble

The number, subject heading, and the What this Product Ruling is about (including Tax law(s), Class of persons and Qualifications sections), Date of effect, Withdrawal, Arrangement and Ruling parts of this document are a 'public ruling' in terms of Part IVAAA of the Taxation Administration Act 1953. Product Ruling PR 1999/95 explains Product Rulings and Taxation Rulings TR 92/1 and TR 97/16 together explain when a Ruling is a public ruling and how it is binding on the Commissioner.

### No guarantee of commercial success

The Australian Taxation Office (ATO) **does not** sanction or guarantee this product as an investment. Further, we give no assurance that the product is commercially viable, that charges are reasonable, appropriate or represent industry norms, or that projected returns will be achieved or are reasonably based.

Potential investors must form their own view about the commercial and financial viability of the product. This will involve a consideration of important issues such as whether projected returns are realistic, the 'track record' of the management, the level of fees in comparison to similar products, how the investment fits an existing portfolio, etc. We recommend a financial (or other) adviser be consulted for such information.

This Product Ruling provides certainty for potential investors by confirming that the tax benefits set out below in the **Ruling** part of this document are available, **provided that** the arrangement is carried out in accordance with the information we have been given, and have described below in the **Arrangement** part of this document.

If the arrangement is not carried out as described below, investors lose the protection of this Product Ruling. Potential investors may wish to seek assurances from the promoter that the arrangement will be carried out as described in this Product Ruling.

Potential investors should be aware that the ATO will be undertaking review activities to confirm the arrangement has been implemented as described below and to ensure that the participants in the arrangement include in their income tax returns income derived in those future years.

## **Terms of Use of this Product Ruling**

This Product Ruling has been given on the basis that the person(s) who applied for the Ruling, and their associates, will abide by strict terms of use. Any failure to comply with the terms of use may lead to the withdrawal of this Ruling.

## What this Product Ruling is about

1. This Ruling sets out the Commissioner's opinion on the way in which the 'tax laws' identified below apply to the defined class of persons who take part in the arrangement to which this Ruling refers. In this Ruling this arrangement is sometimes referred to as the 2002 Timbercorp Olive Project – Supplementary Prospectus or simply as 'the Project'.

#### Tax law(s)

Product Ruling

Page 2 of 38

PR 2002/121

- 2. The tax laws dealt with in this Ruling are:
  - Section 6-5 of the *Income Tax Assessment Act 1997* ('ITAA 1997');
  - Section 8-1 (ITAA 1997);
  - Section 17-5 (ITAA 1997);
  - Division 27 (ITAA 1997);
  - Division 35 (ITAA 1997);
  - Division 40 (ITAA 1997);
  - Section 70-35 (ITAA 1997);
  - Division 328 (ITAA 1997);
  - Section 82KL of the Income Tax Assessment Act 1936 ('ITAA 1936');
  - Section 82KZL (ITAA 1936);
  - Section 82KZME (ITAA 1936);
  - Section 82KZMF (ITAA 1936); and
  - Part IVA (ITAA 1936).

#### **Goods and Services Tax**

3. In this Ruling all fees and expenditure referred to include Goods and Services Tax ('GST') where applicable. In order for an entity (referred to in this Ruling as a Grower) to be entitled to claim input tax credits for the GST included in its expenditure, it must be registered or required to be registered for GST and hold a valid tax invoice. Changes in the Law

4. The Government is currently evaluating further changes to the tax system in response to the Ralph *Review of Business Taxation* and continuing business tax reform is expected to be implemented over a number of years. Although this Ruling deals with the taxation legislation enacted at the time it was issued, later amendments may impact on this Ruling. Any such changes will take precedence over the application of this Ruling and, to that extent, this Ruling will be superseded.

5. Taxpayers who are considering participating in the Project are advised to confirm with their taxation adviser that changes in the law have not affected this Product Ruling since it was issued.

#### Note to promoters and advisers

6. Product Rulings were introduced for the purpose of providing certainty about tax consequences for participants in projects such as this. In keeping with that intention, the Tax Office suggests that promoters and advisers ensure that participants are fully informed of any legislative changes after the Ruling is issued.

#### **Class of persons**

7. The class of persons to whom this Ruling applies is the persons who are more specifically identified in the Ruling part of this Product Ruling and who enter into the arrangement specified below on or after the date this Ruling is made. They will have a purpose of staying in the arrangement until it is completed (i.e., being a party to the relevant Agreements until their term expires) and deriving assessable income from this involvement. In this Ruling these persons are referred to as 'Growers'.

8. The class of persons to whom this Ruling applies does not include persons who intend to terminate their involvement in the arrangement prior to its completion, or who otherwise do not intend to derive assessable income from it.

#### Qualifications

9. The Commissioner rules on the precise arrangement identified in the Ruling. If the arrangement described in the Ruling is materially different from the arrangement that is actually carried out, the Ruling has no binding effect on the Commissioner. The Ruling will be withdrawn or modified.

10. A Product Ruling may only be reproduced in its entirety. Extracts may not be reproduced. As each Product Ruling is copyright,

or by e-mail: <u>commonwealth.copyright@dcita.gov.au</u>.

### **Date of effect**

11. This Ruling applies prospectively from 30 October 2002, the date this Ruling is made. However, the Ruling does not apply to taxpayers to the extent that it conflicts with the terms of settlement of a dispute agreed to before the date of issue of the Ruling (see paragraphs 21 and 22 of Taxation Ruling TR 92/20).

12. If a taxpayer has a more favourable private ruling (which is legally binding), the taxpayer can rely on that private ruling if the income year to which it relates has ended or has commenced but not yet ended. However if the arrangement covered by the private ruling has not commenced, and the income year to which it relates has not yet commenced, this Ruling applies to the taxpayer to the extent of the inconsistency only (see Taxation Determination TD 93/34).

### Withdrawal

13. This Product Ruling is withdrawn and ceases to have effect after 30 June 2005. The Ruling continues to apply, in respect of the tax law(s) ruled upon, to all persons within the specified class who enter into the arrangement specified below. Thus, the Ruling continues to apply to those persons, even following its withdrawal, who entered into the specified arrangement prior to withdrawal of the Ruling. This is subject to there being no change in the arrangement or in the person's involvement in the arrangement.

### Arrangement

14. The arrangement that is the subject of this Ruling is specified below. This arrangement incorporates the following documents:

The<br>Growers' options to subscribe for<br>shares are exercisable between<br>1 March 2025 and 31 March 2025. |

Growers entering into the Project will enter into a Licence and 17. Joint Venture Agreement with Olivecorp Land. Olivecorp Land warrants that it has completed the establishment of the olive grove and all associated infrastructure on its land by 30 April 2002. Under this agreement each Grower will be given a right to use and occupy a minimum of two parcels of land for a period of approximately 22 years for the purpose of cultivating the grove for the production of olives for processing into olive oil for sale. The Responsible Entity may, however, accept an application for only one parcel of land. Each parcel of land is an allotment of 0.25 hectares of land ('Grovelot'). Under the agreement, each Grower will also enter into a joint venture arrangement with Olivecorp Land (on a 90%:10% basis) in respect of the cultivation and management of their Grovelots. As a result, each Grower will be responsible for 90% of all management costs associated with the cultivation and management of their Grovelots and will be entitled to 90% of all produce.

18. Growers (comprising each applicant in a separate joint venture with Olivecorp Land) will enter into a Grovelot Management

FOI status: may be released

Agreement with the Responsible Entity to perform services in relation to the cultivation and management of their Grovelots. Under this agreement, the Responsible Entity will also harvest the olives, procure the processing of olives into olive oil and sell the oil on behalf of the joint venture Growers (at market prices) who will be entitled to the proceeds in their respective proportions. Olivecorp Management Limited, to whom the Responsible Entity will delegate its managerial responsibilities, has entered into a put option agreement with Costa d'Oro srl, a major Italian olive oil distributor, under which it is entitled to require Costa d'Oro to purchase up to 4,500 metric tonnes of olive oil per annum during the first 19 years of the Project.

19. The cost of participation for a Grower, per Grovelot, are set out below (these costs do not include the costs payable by Olivecorp Land as 10% joint venturer):

- The initial subscription costs outlined in the Licence and Joint Venture Agreement and the Grovelot Management Agreement, totalling \$6,270 per Grovelot payable on application;
- Licence fees of \$605 per Grovelot payable on 31 October 2003 (but not before 1 July 2003) and thereafter on 31 October (but not before 1 July) of each subsequent year, indexed to CPI, and increased on account of GST payable;
- Management fees of \$1,210 per Grovelot payable on 31 October 2003 (but not before 1 July 2003);
- Ongoing costs outlined in the Grovelot Management Agreement payable annually from 31 October 2004 through to year 22; and
- any applicable financing costs.

#### Licence and Joint Venture Agreement

20. Under the Licence and Joint Venture Agreement, Olivecorp Land warrants and represents to the Grower that it has, at its own cost, established not less than 2000 Grovelots, constructed the necessary infrastructure and carried out capital works. The establishment and capital works that were undertaken include as follows:

- prepared that part of Land and each Grovelot which can be used to grow Olive Trees satisfactorily;
- installed appropriate irrigation equipment and carried out the necessary irrigation works to ensure proper reticulation of water to the Olive Trees on each Grovelot;

- carried out drainage work and other works to help prevent soil erosion on all Land;
- eradicated as far as reasonably possible any pests and competitive weeds which may affect the growth or yield of the Olive Trees;
- planted Olive Trees on each Grovelot, staked, surveyed and erected stakes approximately 2.3 meters in height and where applicable, constructed trellising in accordance with good horticultural practices so that the Olive Trees can be harvested commercially; and
- provided or undertaken, as the case requires, such other capital works, services or things which, in the reasonable opinion of Olivecorp Land, were incidental or ancillary to the effective establishment and provision of the works referred to above.

21. Each applicant Grower obtains a non-exclusive licence to use and occupy Grovelots in joint venture with Olivecorp Land ('JV Grovelots'). Under the terms of the agreement a Grower may only use the land for the purpose of cultivating and harvesting olives and producing olive oil.

22. Olivecorp Land must purchase and maintain Water Rights up to a maximum of 5.5 megalitres of water per plantable hectare, during the Project as required to irrigate the Grovelots and ensure that its Water Rights are fully exploited.

23. The agreement provides that Olivecorp Land and each Grower will enter into the Grovelot Management Agreement as joint venturers. It provides that the Grower will be entitled to 90% of the joint venture assets and will be entitled to 90% of the olives and of the proceeds of sale. The Grower will also be responsible for 90% of the fees.

24. The Licence and Joint Venture Agreement also provides that the Grower must only use the JV Grovelot(s) for the purpose of Joint Venture operations and must comply with good horticultural and environmental practices and relevant laws and regulations. The Grower must permit access to the Grovelot(s) for the purposes of the Project under the Licence and Joint Venture Agreement and the Grovelot Management Agreement. The Grower may engage any person as an agent for the better performance of its obligation under the Licence and Joint Venture Agreement. At the expiration of the term of this agreement, each Grower must return the Grovelot(s) to Olivecorp Land in good condition but is not required to remove the olive trees or restore the Grovelot(s) to their original condition.

#### **Grovelot Management Agreement**

25. Under the Grovelot Management Agreement, each Grower (in joint venture with Olivecorp Land) engages the Responsible Entity ('the Manager') to manage and cultivate the grove on behalf of the Grower in accordance with the management plan, harvest the olives, procure the processing of the olives into olive oil and market the oil for sale for the duration of the term. The olives from the Grower's Grovelot(s) will be pooled with olives from other Grower's Grovelots and Growers will be entitled to their pro rata proportion of the olives and the olive oil produced.

26. The Manager is required to perform the following services in a proper and efficient manner to the extent necessary and in accordance with good horticultural and environmental practices:

- prune the Olive Trees by mechanical or other methods;
- as permitted by law, eradicate vermin which have caused or may cause damage to the Olive Trees or the Grower's Grovelots and put in place measures to control such vermin;
- operate the irrigation system licensed to Growers on the Grower's Grovelots at various times in order to irrigate the Grower's Grovelots;
- at its discretion, conduct tests to ascertain the availability of nutrients in the soil on the Grower's Grovelots and, based on the results, take whatever action is required to maintain the growth rate and productivity of the Olive Trees;
- fertilise the Grower's Grovelots as required, in accordance with good horticultural practices, to maintain satisfactory rates of growth and productivity of the Olive Trees;
- in its absolute discretion and without needing the Grower's consent, destroy any of the Olive Trees or Olives which have contracted an exotic, noxious or incurable disease;
- keep the improvements on the Grower's Grovelots in good and substantial repair;
- maintain fire breaks in accordance with regulatory and insurance requirements and good horticultural practices;
- maintain the Grower's Grovelots in accordance with good horticultural practices including using soil

management technique methods to reduce erosion and maintain soil quality;

- protect the Olive Trees from insect infestation and competition from competing growth using good horticultural practices, including applying herbicides or pesticides to the Grower's Grovelots and spraying under the Olive Trees as permitted by law;
- regularly inspect and repair all stakes, fences and irrigation equipment on the Grower's Grovelots;
- tie and stake all Olive Trees on the Grower's Grovelots or (where applicable) attach Olive Trees to trellising in accordance with good horticultural practices;
- replant any of the Olive Trees in need of replacement in accordance with the terms of any agreement made with suppliers of the Olive Trees;
- comply with the Grower's licence obligations under the Licence and Joint Venture Agreement (except for those relating to payment of fees);
- do all things necessary to ensure that its rights under the Water Licences are fully exploited to maximize the use and enjoyment of them by the Grower;
- take all steps to avoid interfering with the supply of water to the Grower's Grovelots and to avoid any actions that would prejudice the Grower's rights under this Agreement;
- not discriminate between Growers in the supply of water under the Water Licences;
- if additional water in excess of 1.375 megalitres per Grovelot is required from time to time in order to irrigate the Grove and such additional water can be reasonably procured by way of temporary water rights, procure such additional water and supply it to Growers, at a cost to Growers to be determined in accordance with this Agreement;
- provide any other service or thing which, in the reasonable opinion of the Responsible Entity, is incidental or ancillary to the ongoing management of the Grower's Grovelots; and
- comply with all laws and regulations relating to the use and occupancy of the Grower's Grovelots.

27. The Manager will endeavour to arrange insurance on the Growers' behalf. Where this is available, Growers are required to insure their Grovelots against damage or destruction by fire and other insurable risks. The Manager will arrange payment of insurance premiums to the appropriate insurers.

28. Pursuant to the Manager's right to delegate any of its obligations under this Agreement, it has entered into a Management Agreement with Olivecorp Management Limited.

#### Fees

29. A licence fee per Grovelot will be payable by a Grower under the terms of the Licence and Joint Venture Agreement for each of the following periods:

- from Commencement Date until 30 June 2003, payable on application, \$605;
- for the financial year ending 30 June 2004, payable on 31 October 2003, \$605; and
- for each subsequent financial year, payable on 31 October of each respective financial year, \$605, indexed.

30. In accordance with the terms of the Grovelot Management Agreement, a Grower will make the following payments per Grovelot ('Management fees'):

- in respect of services to be provided in the period commencing on the Commencement Date and ending on 30 June 2003 an amount of \$5,665 payable on application;
- in respect of services to be provided in the period 1 July 2003 to 30 June 2004 - \$1,210 per Grovelot payable on 31 October 2003; and
- thereafter, in respect of services to be provided in each subsequent financial year during the Term, an amount per Grovelot calculated by the Responsible Entity as the reasonable costs of managing the Grovelot payable on 31 October during that financial year. This amount will be adjusted once the actual costs of managing the Grower's Grovelots are determined.

31. The Manager will only provide services following the execution of the Licence and Joint Venture Agreement and the Grovelot Management Agreement.

32.

- (a) a management fee based on a percentage of annual gross proceeds from the sale of bulk olive oil less the costs and expenses of processing the olives into olive oil; and
- (b) a bonus, based on a percentage of so much of the annual proceeds (after deducting the fee referred to in paragraph (a) above) payable to a Grower in a financial year as exceeds the proceeds estimated in the prospectus, less any allowance for inflation arriving at such estimate, but indexed from the date of the Grovelot Management Agreement. This fee will be calculated on a 2 year rolling basis to allow for variations in yields from year to year.

#### **Option to Acquire an Interest in the land**

33. Under an Option Agreement between Olivecorp Land and Grovelot Holdings Limited, the latter company is granted an option to acquire a legal interest in the land on which the olive grove will be established that will not exceed 24.9%. That option is exercisable between 1 April 2025 and 30 April 2025.

34. The terms and conditions of the options to be granted to a Grower or its associate to acquire shares in the capital of the Grovelot Holdings Limited are dealt with in the Fourth Schedule of the Constitution. Upon application for Grovelots, each Grower (or its associate, as defined), will be issued with options to take up shares in the capital of Grovelot Holdings Limited equal to the number of Grovelots in the Project that the Grower subscribes for. The options to subscribe for shares are exercisable between 1 March 2025 and 30 March 2025. A Grower or its associate may exercise the option by serving an exercise notice of the option on Grovelot Holdings Limited and paying the subscription price of \$1,300 per share. The exercise of options will only be effective if at least 30% of all options issued are exercised.

35. Grovelot Holdings Limited will exercise its option over the land under the Option Agreement, so long as it is in the best interest of Growers to do so, at a price which is the lesser of:

> the amount calculated by multiplying \$2,440,000 (a) (based on a 500 hectare grove) by the proportionate interest to be acquired in the land; and

(b) an independent valuation of the land multiplied by the proportionate interest to be acquired in the land.

#### Finance

Product Ruling

Page 14 of 38

PR 2002/121

36. Growers can fund their involvement in the Projects themselves, borrow from Timbercorp Finance Pty Ltd (a lender associated with the Responsible Entity) or borrow from an independent lender.

37. This Ruling does not apply if the finance arrangement entered into by the Grower includes or has any of the following features:

- there are split loan features of a type referred to in Taxation Ruling TR 98/22;
- there are indemnity arrangements or other collateral agreements in relation to the loan designed to limit the borrower's risk;
- 'additional benefits' are or will be granted to the borrowers for the purpose of section 82KL or the funding arrangements transform the Project into a 'scheme' to which Part IVA may apply;
- the loan or rate of interest is non-arm's length;
- repayments of the principal and payments of interest are linked to the derivation of income from the Project;
- the funds borrowed, or any part of them, will not be available for the conduct of the Project but will be transferred (by any mechanism, directly or indirectly) back to the lender or any associate of the lender;
- lenders do not have the capacity under the loan agreement, or a genuine intention, to take legal action against defaulting borrowers; or
- entities associated with the Project other than Timbercorp Finance Pty Ltd, are involved or become involved in the provision of finance to Growers for the Project.

## Ruling

#### **Application of this Ruling**

38. This Ruling applies only to Growers who are accepted to participate in the Project before 14 March 2003 or such earlier date determined by the Directors of TSL and who have executed a

Grovelot Management Agreement and a Licence and Joint Venture Agreement before that date. The Grower's participation in the Project must constitute the carrying on of a business of primary production.

#### The Simplified Tax System ('STS')

#### **Division 328**

39. For a Grower participating in the Project, the recognition of income and the timing of tax deductions is different depending on whether the Grower is an 'STS taxpayer'. To be an 'STS taxpayer' a Grower:

- must be eligible to be an 'STS taxpayer'; and
- must have elected to be an 'STS taxpayer'.

#### Qualification

40. This Product Ruling assumes that a Grower who is an 'STS taxpayer' is so for the income year in which their participation in the Project commences. A Grower may become an 'STS taxpayer' at a later point in time. Also, a Grower who is an 'STS taxpayer' may choose to stop being an 'STS taxpayer', or may cease to be eligible to be an 'STS taxpayer', during the term of the Project. These are contingencies relating to the circumstances of individual Growers that cannot be accommodated in this Ruling. Such Growers can ask for a private ruling on how the taxation legislation applies to them.

#### Tax outcomes for Growers who are not 'STS taxpayers'

#### Assessable Income

#### Section 6-5

41. That part of the gross sales proceeds from the Project attributable to the Grower's produce, less any GST payable on those proceeds (section 17-5), will be assessable income of the Grower under section 6-5.

42. The Grower recognises ordinary income from carrying on the business of cultivating olive trees and harvesting the olives for the production and sale of olive oil at the time that income is derived.

#### **Trading stock**

#### Section 70-35

43. During the term of the Project a Grower who is not an 'STS taxpayer' may hold olives or olive oil that will constitute trading

Page 16 of 38

FOI status: may be released

stock on hand. Where, in an income year, the value of trading stock on hand at the *end* of an income year exceeds the value of trading stock on hand at the *start* of an income year a Grower must include the amount of that excess in assessable income.

44. Alternatively, where the value of trading stock on hand at the *start* of an income year exceeds the value of trading stock on hand at the *end* of an income year, a Grower may claim the amount of that excess as an allowable deduction.

45. During each year of the Project the Manager will provide the Grower with sufficient information to enable the Grower to determine the value of trading stock on hand at the end of the relevant income year.

#### Deductions for Management fees, Licence fees, and Interest

#### Section 8-1

46. A Grower who is not an 'STS taxpayer' may claim tax deductions for the following revenue expenses.

#### Notes:

 (i) If the Grower is registered or required to be registered for GST, amounts of outgoing would need to be adjusted as relevant for GST (e.g., input tax credits): Division 27. See example at paragraph 121;

- (ii) The Management fees and the Licence fees shown in the Grovelot Management Agreement and the Licence and Joint Venture Agreement are deductible in full in the year that they are incurred. However, if a Grower chooses to prepay fees for the doing of a thing (e.g., the provision of management services or the leasing of land) that will not be wholly done in the income year the fees are incurred, the prepayment rules of the ITAA 1936 may apply to apportion those fees. In such cases, the tax deduction for the prepaid fee must be determined using the formula shown in paragraph 95 unless the expenditure is 'excluded expenditure'. 'Excluded expenditure' is an 'exception' to the prepayment rules and is deductible in full in the year in which it is incurred. For the purpose of this Ruling 'excluded expenditure' refers to an amount of expenditure of less than \$1,000;
- (iii) The deductibility or otherwise of interest arising from loan agreements entered into with financiers other than Timbercorp Finance Pty Ltd, the internal financier, is outside the scope of this Ruling. However all Growers, including those who finance their participation in the Project other than with Timbercorp Finance Pty Ltd, should read the discussion of the prepayment rules in paragraphs 89 to 103 (below) as those rules may be applicable if interest is prepaid. Subject to the 'excluded expenditure' exception, the prepayment rules apply whether the prepayment is required under the relevant loan agreement or is at the Grower's choice.

#### **Trading stock**

#### Section 328-285

49. During the term of the Project a Grower who is an 'STS taxpayer' may hold olives or olive oil that will constitute trading stock on hand. Where, the difference between the value of all of a Grower's trading stock at the start of an income year and a reasonable estimate of it at the end of an income year, is less than \$5,000, the Grower does not have to account for that difference under the ordinary trading stock rules in Division 70 (subsection 328-285(1)).

50. Alternatively, a Grower who is an 'STS taxpayer' may instead choose to account for trading stock in an income year under the provisions of Division 70 (subsection 328-285(2)).

51. During each year of the Project the Manager will provide the Grower with sufficient information to enable the Grower to determine the value of trading stock on hand at the end of the relevant income year.

#### Notes:

- (iv) If the Grower is registered or required to be registered for GST, amounts of outgoing would need to be adjusted as relevant for GST (e.g., input tax credits): Division 27. See example at paragraph 121;
- (v) If, for any reason, an amount shown in the table above is not fully paid in the year in which it is incurred by a Grower who is an 'STS taxpayer' then the amount is only deductible to the extent to which it has been paid, or has been paid for the Grower. Any amount or part of an amount shown in the table above, which is not paid in the year in which it is incurred, will be deductible in the year in which it is actually paid;
- (vi) Where a Grower who is an 'STS taxpayer', pays the Management fees and the Licence fees in the relevant income years shown in the Grovelot Management Agreement and the Licence and Joint Venture Agreement, those fees are deductible in full in the year

that they are paid. However, if a Grower **chooses** to prepay fees for the doing of a thing (e.g., the provision of management services or the leasing of land) that will not be wholly done in the same income year as the fees are incurred, the prepayment rules of the ITAA may apply to apportion those fees. In such cases, the tax deduction for the prepaid fee must be determined using the formula shown in paragraph 95, unless the expenditure is 'excluded expenditure'. 'Excluded expenditure' is an 'exception' to the prepayment rules, and is deductible in full in the year in which it is incurred. For the purpose of this Ruling 'excluded expenditure' refers to an amount of expenditure of less than \$1,000;

(vii) The deductibility or otherwise of interest arising from loan agreements entered into with financiers other than Timbercorp Finance Pty Ltd, the internal financier is outside the scope of this Ruling. However, all Growers, including those who finance their participation in the Project other than with Timbercorp Finance Pty Ltd, should read the discussion of the prepayment rules in paragraph 89 to 103 (below) as those rules may be applicable if interest is prepaid. Subject to the 'excluded expenditure' exception, the prepayment rules apply whether the prepayment is required under the relevant loan agreement or is at the Grower's choice.

#### Tax outcomes that apply to all Growers

#### Deferral of losses from non-commercial business activities

#### Section 35-55 – Commissioner's discretion

Product Ruling

Page 20 of 38

PR 2002/121

53. For a Grower who is an individual and who enters the Project during the year ended 30 June 2003 the rule in section 35-10 may apply to the business activity comprised by their involvement in this Project. Under paragraph 35-55(1)(b) the Commissioner will decide for the income years ending 30 June 2003 to 30 June 2005 that the rule in section 35-10 does not apply to this activity provided that the Project is carried out in the manner described in this Ruling.

54. This exercise of the discretion in subsection 35-55(1) will not be required where, for any year in question:

• a Grower's business activity satisfies one of the objective tests in sections 35-30, 35-35, 35-40 or 35-45; or

• the 'Exception' in subsection 35-10(4) applies (see paragraph 107 in the Explanations part of this ruling, below).

Product Ruling

Page 21 of 38

PR 2002/121

55. Where either the Grower's business activity satisfies one of the objective tests, the discretion in subsection 35-55(1) is exercised, or the Exception in subsection 35-10(4) applies, section 35-10 will not apply. This means that a Grower will not be required to defer any excess of deductions attributable to their business activity in excess of any assessable income from that activity, i.e., any 'loss' from that activity, to a later year. Instead, this 'loss' can be offset against other assessable income for the year in which it arises.

56. Growers are reminded of the important statement made on Page 1 of this Product Ruling. Therefore, Growers should not see the Commissioner's decision to exercise the discretion in paragraph 35-55(1)(b) as an indication that the Tax Office sanctions or guarantees the Project or the product to be commercially viable. An assessment of the Project or the product from this perspective has not been made.

#### **Deductions for horticultural plant**

#### **Division 40**

57. A Grower will also be entitled to tax deductions relating to the olive trees on the Grovelot. The deductions shown in the table below are determined under Division 40.

| ITAA 1997      | Year 1                         | Year 2                         | Year 3                                          |
|----------------|--------------------------------|--------------------------------|-------------------------------------------------|
| Section        | 30/6/2003                      | 30/6/2004                      | 30/6/2005                                       |
| Section 40-515 | nil - See Note<br>(ix) (below) | nil - See Note<br>(ix) (below) | \$31.76 - See<br>Notes (viii) &<br>(ix) (below) |

#### Notes:

- (viii) If the Grower is registered or required to be registered for GST, amounts of outgoing would need to be adjusted as relevant for GST (e.g., input tax credits): Division 27. See example at paragraph 121.
- (ix) An olive tree is considered to be a 'horticultural plant' as defined in subsection 40-520(2). A Grower holds a licence to cultivate olive trees on a designated land called a Grovelot for the production of olive oil for commercial gain in Joint Venture with Olivecorp Land. This licence is limited to that Grower's Prescribed

Proportion of the Joint Venture Assets of 90%. As a Grower holds the land under a licence, one of the conditions in subsection 40-525(2) is met and a deduction for 'horticultural plants' is available under paragraph 40-515(1)(b) for their decline in value.

The deduction is determined using the formula in section 40-545. The establishment expenditure that can be written-off by a Grower is limited to 90% of the capital expenditure incurred that is attributable to the establishment of the olive trees. As the olive trees have an 'effective life' of 30 years or more, a straight-line write-off rate of 13% will be applied. The deduction is allowable when the olive trees enter their first commercial season (section 40-530, item 2).

#### Sections 82KZME – 82KZMF, 82KL, and Part IVA

58. For a Grower who participates in the Project and incurs expenditure as required by the Grovelot Management Agreement and the Licence and Joint Venture Agreement the following provisions of the ITAA 1936 have application as indicated:

- expenditure by a Grower does not fall within the scope of sections 82KZME 82KZMF (but see paragraphs 89 to 103);
- section 82KL does not apply to deny the deductions otherwise allowable; and
- the relevant provisions in Part IVA will not be applied to cancel a tax benefit obtained under a tax law dealt with in this Ruling.

### **Explanations**

#### Is the Grower carrying on a business?

59. For the amounts set out in the tables above to constitute allowable deductions the Grower's activities of cultivating olive trees and harvesting the olives for the production and sale of olive oil as a participant in the 2002 Timbercorp Olives Project – Supplementary Prospectus must amount to the carrying on of a business of primary production.

60. Where there is a business, or a future business, the Gross Harvest Proceeds from the sale of the olives and olive oil will

Product Ruling

PR 2002/121

constitute gross assessable income in their own right. The generation of 'business income' from such a business, or future business, provides the backdrop against which to judge whether the outgoings in question have the requisite connection with the operations that more directly gain or produce this income.

61. For schemes such as that of the 2002 Timbercorp Olives Project – Supplementary Prospectus, Taxation Ruling TR 2000/8 sets out in paragraph 89 the circumstances in which the Grower's activities can constitute the carrying on of a business. As Taxation Ruling TR 2000/8 sets out, these circumstances have been established in court decisions such as *FCT v. Lau* 84 ATC 4929; 16 ATR 55.

62. Generally, a Grower will be carrying on a business of cultivating olive trees and harvesting the olives for the production and sale of olive oil, and hence primary production, if:

- the Grower has an identifiable interest (by lease or by licence) in the land on which the Grower's trees are established;
- the Grower has a right to harvest and sell the olives and olive oil produce from those trees;
- the cultivating of the olive trees and harvesting the olives for the production and sale of olive oil are carried out on the Grower's behalf;
- the activities of the Grower are typical of those associated with a business of cultivating olive trees and harvesting the olives for the production and sale of olive oil; and
- the weight and influence of general indicators point to the carrying on of a business.

63. In this Project, each Grower enters into a Licence and Joint Venture Agreement and a Grovelot Management Agreement.

64. Under the Licence and Joint Venture Agreement, each individual Grower will have rights over a specific and identifiable area of 0.25 hectares or more of land. The Licence and Joint Venture Agreement provides the Grower with an ongoing interest in the specific trees on the licenced area for the term of the Project. Under the Licence, the Grower must use the land in question for the purpose of carrying out activities of cultivating olive trees and harvesting the olives for the production and sale of olive oil and for no other purpose. The Licence allows the Manager to come onto the land to carry out its obligations under the Grovelot Management Agreement.

65. Under the Grovelot Management Agreement the Manager is engaged by the Grower to maintain a Grovelot on the Grower's identifiable area of land during the term of the Project. The Manager has provided evidence that it holds the appropriate professional skills

PR 2002/121

and credentials to provide the management services to maintain the Grovelot on the Grower's behalf.

Product Ruling

Page 24 of 38

PR 2002/121

66. The Manager is also engaged to harvest the olives grown on the Grower's Grovelot for the production and sale of olive oil on the Grower's behalf.

67. The general indicators of a business, as used by the Courts, are described in Taxation Ruling TR 97/11. Positive findings can be made from the Project's description for all the indicators.

68. The activities that will be regularly carried out during the term of the Project demonstrate a significant commercial purpose. Based on reasonable projections, a Grower in the Project will derive assessable income from the sale of the olives and olive oil produce that will return a before-tax profit, i.e., a profit in cash terms that does not depend in its calculation on the fees in question being allowed as a deduction.

69. The pooling of olives and olive oil produce from trees grown on the Grower's Grovelot with the olives and olive oil produce of other Growers is consistent with general horticultural practices. Each Grower's proportionate share of the sale proceeds of the pooled olives and olive oil products will reflect the proportion of the trees contributed from their Grovelot.

70. The Manager's services are also consistent with general horticultural practices. They are of the type ordinarily found in horticultural ventures that would commonly be said to be businesses. While the size of a Grovelot is relatively small, it is of a size and scale to allow it to be commercially viable (see Taxation Ruling IT 360).

71. The Grower's degree of control over the Manager as evidenced by the Grovelot Management Agreement, and supplemented by the Corporations Act, is sufficient. During the term of the Project, the Manager will provide the Grower with regular progress reports on the Grower's Grovelot and the activities carried out on the Grower's behalf. Growers are able to terminate arrangements with the Manager in certain instances, such as cases of default or neglect.

72. The activities of cultivating olive trees and harvesting the olives for the production and sale of olive oil, and hence the fees associated with their procurement, are consistent with an intention to commence regular activities that have an 'air of permanence' about them. For the purposes of this Ruling, the Grower's activities of cultivating olive trees and harvesting the olives for the production and sale of olive oil in the 2002 Timbercorp Olives Project - Supplementary Prospectus will constitute the carrying on of a business.

#### The Simplified Tax System

#### **Division 328**

73. Subdivision 328-F sets out the eligibility requirements that a Grower must satisfy in order to enter the STS and Subdivision 328-G sets out the rules for entering and leaving the STS.

74. The question of whether a Grower is eligible to be an 'STS taxpayer' is outside the scope of this Product Ruling. Therefore, any Grower who relies on those parts of this Ruling that refer to the STS will be assumed to have correctly determined whether or not they are eligible to be an 'STS taxpayer'.

#### **Deductibility of Management fees and Licence fees**

#### Section 8-1

75. Consideration of whether the initial management fee and licence fee are deductible under section 8-1 begins with the first limb of the section. This view proceeds on the following basis:

- the outgoing in question must have a sufficient connection with the operations or activities that directly gain or produce the taxpayer's assessable income;
- the outgoings are not deductible under the second limb if they are incurred when the business has not commenced; and
- where all that happens in a year of income is that a taxpayer is contractually committed to a venture that may not turn out to be a business, there can be doubt about whether the relevant business has commenced, and hence, whether the second limb applies. However, that does not preclude the application of the first limb in determining whether the outgoing in question has a sufficient connection with activities to produce assessable income.

76. The Management fees and Licence fees associated with the activities of cultivating olive trees and harvesting the olives for the production and sale of olive oil will relate to the gaining of income from the Grower's business of cultivating olive trees and harvesting the olives for the production and sale of olive oil (see above), and hence have a sufficient connection to the operations by which income (from the harvesting and sale of olives and olive oil produce) is to be gained from this business. They will thus be deductible under the first limb of section 8-1. Further, no 'non-income producing' purpose in incurring the fee is identifiable from the arrangement. The fee appears to be reasonable. There is no capital component of the management

Product Ruling **PR 2002/121**Page 26 of 38

fee. The tests of deductibility under the first limb of section 8-1 are met. The exclusions do not apply.

#### Possible application of prepayment provisions

77. Under the Grovelot Management Agreement and the Licence and Joint Venture Agreement neither the Management fees nor the Licence fees are for things to be done beyond 30 June in the year in which the relevant amounts are incurred. In these circumstances, the prepayment provisions in sections 82KZME and 82KZMF have no application to these fees.

78. However, where a Grower <u>chooses</u> to prepay these fees for a period beyond the income year in which the expenditure is incurred, the prepayment provisions (see paragraphs 89 to 103) will apply to determine the amount and timing of the deductions regardless of whether the Grower is an 'STS taxpayer' or not. These provisions apply to 'STS taxpayers' because there is no specific exclusion contained in section 82KZME that excludes 'STS taxpayers' from the operation of section 82KZMF. This is subject to the 'excluded expenditure' exception. For the purpose of this Ruling 'excluded expenditure' refers to an amount of expenditure of less than \$1,000.

#### Timing of deductions

79. In the absence of any application of the prepayment provisions, the timing of deductions for the Management fees or the Licence fees will depend upon whether a Grower is an 'STS taxpayer' or is not an 'STS taxpayer'.

80. If the Grower is not an 'STS taxpayer', the Management fees and the Licence fees are deductible in the year in which they are incurred.

81. If the Grower is an 'STS taxpayer' the Management fees and the Licence fees are deductible in the income year in which they are paid, or are paid for the Grower (paragraph 328-105(1)(b)). If any amount that is properly incurred in an income year remains unpaid at the end of that income year, the unpaid amount is deductible in the income year in which it is actually paid or is paid for the Grower.

Section 8-1

# (i) Growers who use Timbercorp Finance Pty Ltd as the finance provider

82. Some Growers may finance their participation in the Project through a loan facility with Timbercorp Finance Pty Ltd. Whether the resulting interest costs are deductible under section 8-1 depends on the same reasoning as that applied to the deductibility of Management and Licence fees.

Product Ruling

Page 27 of 38

PR 2002/121

83. The interest incurred for the year ended 30 June 2003 and in subsequent years of income will be in respect of a loan to finance the Grower's business operations - the cultivation and growing of olive trees and the licence of the land on which the trees will have been planted - that will continue to be directly connected with the gaining of 'business income' from the Project. Such interest will, therefore, have a sufficient connection with the gaining of assessable income to be deductible under section 8-1.

84. As with the Management fees and the Licence fees, in the absence of any application of the prepayment provisions (see paragraphs 89 to 103), the timing of deductions for interest will again depend upon whether a Grower is an 'STS taxpayer' or is not an 'STS taxpayer'.

85. If the Grower is not an 'STS taxpayer', interest is deductible in the year in which it is incurred.

86. If the Grower is an 'STS taxpayer' interest is not deductible until it has been both incurred and paid, or is paid for the Grower. If interest that is properly incurred in an income year remains unpaid at the end of that income year, the unpaid amount is deductible in the income year in which it is actually paid, or is paid for the Grower.

# (ii) Growers who DO NOT use Timbercorp Finance Pty Ltd as the finance provider

87. The deductibility of interest incurred by Growers who finance their participation in the Project through a loan facility with a bank or financier other than Timbercorp Finance Pty Ltd is outside the scope of this Ruling. Product Rulings only deal with arrangements where all details and documentation have been provided to, and examined by the Tax Office.

88. While the terms of any finance agreement entered into between relevant Growers and such financiers are subject to commercial negotiation, those agreements <u>may</u> require interest to be prepaid. Alternatively, a Grower may choose to prepay such interest.

**PR 2002/121**Page 28 of 38

Product Ruling

Unless such prepaid interest is 'excluded expenditure' any tax deduction that is allowable will be subject to the prepayment provisions of the ITAA 1936 (see paragraphs 89 to 103).

#### **Prepayment provisions**

#### Sections 82KZL to 82KZMF

89. The prepayment provisions contained in Subdivision H of Division 3 of Part III of the ITAA 1936 affect the timing of deductions for certain prepaid expenditure. These provisions apply to certain expenditure incurred under an agreement in return for the doing of a thing under the agreement (e.g., the performance of management services or the leasing of land) that will not be wholly done within the same year of income as the year in which the expenditure is incurred. If expenditure is incurred to cover the provision of services to be provided within the same year, then it is not expenditure to which the prepayment rules apply.

90. For this Project only section 82KZL (an interpretive provision) and sections 82KZME and 82KZMF are relevant. Where the requirements of sections 82KZME and 82KZMF are met, taxpayers determine deductions for prepaid expenditure under section 82KZMF using the formula in subsection 82KZMF(1). These provisions also apply to 'STS taxpayers' because there is no specific exclusion contained in section 82KZME that excludes 'STS taxpayers' from the operation of section 82KZMF.

#### Sections 82KZME and 82KZMF

91. Where the requirements of subsections 82KZME(2) and (3) are met, the formula in subsection 82KZMF(1) (see below) will apply to apportion expenditure that is otherwise deductible under section 8-1 of the ITAA 1997. The requirements of subsection 82KZME(2) will be met if expenditure is incurred by a taxpayer in return for the doing of a thing that is not to be wholly done within the year the expenditure is made. The year in which such expenditure is incurred is called the 'expenditure year' (subsection 82KZME(1)).

92. The requirements of subsection 82KZME(3) will be met where the agreement (or arrangement) has the following characteristics:

- the taxpayer's allowable deductions under the agreement for the 'expenditure year' exceed any assessable income attributable to the agreement for that year;
- the taxpayer does not have effective day to day control over the operation of the agreement. That is, the

significant aspects of the arrangement are managed by someone other than the taxpayer; and

- either:
  - a) there is more than one participant in the agreement in the same capacity as the taxpayer; or
  - b) the person who promotes, arranges or manages the agreement (or an associate of that person) promotes similar agreements for other taxpayers.

93. For the purpose of these provisions, the agreement includes all activities that relate to the agreement (subsection 82KZME(4)). This has particular relevance for a Grower in this Project who, in order to participate in the Project may borrow funds from a financier other than Timbercorp Finance Pty Ltd. Although undertaken with an unrelated party, that financing would be an element of the arrangement. The funds borrowed and the interest deduction are directly related to the activities under the arrangements, the deductions allowable will be subject to apportionment under section 82KZMF.

94. There are a number of exceptions to these rules, but for Growers participating in this Project, only the 'excluded expenditure' exception in subsection 82KZME(7) is relevant. 'Excluded expenditure' is defined in subsection 82KZL(1). However, for the purposes of Growers in this Project, 'excluded expenditure' is prepaid expenditure incurred under the arrangement that is less than \$1,000. Such expenditure is immediately deductible.

95. Where the requirements of section 82KZME are met, section 82KZMF applies to apportion relevant prepaid expenditure. Section 82KZMF uses the formula below, to apportion prepaid expenditure and allow a deduction over the period that the benefits are provided.

Expenditure X <u>Number of days of eligible service period in the year of income</u> Total number of days of eligible service period

96. In the formula 'eligible service period' (defined in subsection 82KZL(1)) means, the period during which the thing under the agreement is to be done. The eligible service period begins on the day on which the thing under the agreement commences to be done or on the day on which the expenditure is incurred, whichever is the later, and ends on the last day on which the thing under the agreement ceases to be done, up to a maximum of 10 years.

Page 30 of 38

#### Application of the prepayment provisions to this Project

97. In this Project, an initial Management fee of \$5,665 and an initial Licence fee of \$605 per Grovelot will be incurred on execution of the Grovelot Management Agreement and the Licence and Joint Venture Agreement. The Management fee and the Licence fee are charged for providing management services or leasing land to a Grower by 30 June of the year of execution of the Agreements. Under the Agreements, further annual expenditure is required each year during the term of the Project for the provision of management services and land until 30 June in those years.

98. In particular, the Management fee is expressly stated to be for a number of specified services. No explicit conclusion can be drawn from the description of the arrangement that the initial Management fee has been inflated to result in reduced fees being payable for management fees in subsequent years.

99. There is also no evidence that might suggest the management services covered by the fee could not be provided within the relevant expenditure year. Thus, for the purposes of this Ruling, it can be accepted that no part of the initial management fee and the fees for subsequent years, is for the Manager doing 'things' that are not to be wholly done within the expenditure year. Under the Licence and Joint Venture Agreement, licence fees are payable annually on 31 October for the licence to use and occupy the land from 1 July to 30 June during the expenditure year. Similarly, under the loan agreements to be executed between Growers and Timbercorp Finance Pty Ltd interest is payable monthly in arrears.

100. On this basis, provided a Grower incurs expenditure as required under the Project agreements, as set out in paragraphs 29 and 30, then the basic precondition in subsection 82KZME(2) is not satisfied and, in these circumstances, section 82KZMF will have no application.

#### Growers who <u>choose</u> to pay fees for a period in excess of that required by the Project's agreements

101. Although not required under either the Grovelot Management Agreement, the Licence and Joint Venture Agreement, or the Loan Agreement with Timbercorp Finance Pty Ltd, a Grower participating in the Project may <u>choose</u> to prepay fees/interest for a period beyond the 'expenditure year'. Similarly, Growers who use financiers other than Timbercorp Finance Pty Ltd may either choose, or be required to prepay interest. Where this occurs, contrary to the conclusion reached in paragraph 100 above, section 82KZMF will apply to apportion the expenditure and allow a deduction over the period in which the prepaid benefits are provided.

102. For these Growers, the amount and timing of deductions for any relevant prepaid Management fees, prepaid Licence fees, or prepaid interest will depend upon when the respective amounts are incurred and what the 'eligible service period' is in relation to these amounts.

103. However, as noted above, prepaid fees of less than \$1,000 incurred in an expenditure year will be 'excluded expenditure' and will be not subject to apportionment under section 82KZMF.

#### Deferral of losses from non-commercial business activities

#### **Division 35**

104. Under the rule in subsection 35-10(2) a deduction for a loss incurred by an individual from certain business activities will not be allowable in an income year unless:

- the 'Exception' in subsection 35-10(4) applies;
- one of four objective tests in sections 35-30, 35-35, 35-40 or 35-45 is met; or
- if one of the objective tests is not satisfied, the Commissioner exercises the discretion in section 35-55.

105. Generally, a loss in this context is, for the income year in question, the excess of an individual taxpayer's allowable deductions attributable to the business activity over that taxpayer's assessable income from the business activity.

106. Under the loss deferral rule in subsection 35-10(2) the relevant loss is not able to be taken into account in the calculation of taxable income in the year that loss arose. Instead, in a later year it may be offset against any income from the same or similar business activity, or, if one of the objective tests is passed, or the Commissioner's discretion exercised, against other income.

107. For the purposes of applying the objective tests, subsection 35-10(3) allows taxpayers to group business activities 'of a similar kind'. Under subsection 35-10(4), there is an 'exception' to the general rule in subsection 35-10(2) where the loss is from a primary production business activity and the individual taxpayer has other assessable income for the income year from sources not related to that activity, of less than \$40,000 (excluding any net capital gain). As both subsections relate to the individual circumstances of Growers who participate in the Project they are beyond the scope of this Product Ruling and are not considered further.

108. In broad terms, the objective tests require:

PR 2002/121

Product Ruling

- at least \$20,000 of assessable income in that year from the business activity (section 35-30);
- the business activity results in a taxation profit in 3 of the past 5 income years (including the current year) (section 35-35);
- at least \$500,000 of real property is used on a continuing basis in carrying on the business activity in that year (section 35-40); or
- at least \$100,000 of certain other assets are used on a continuing basis in carrying on the business activity in that year (section 35-45).

109. A Grower who participates in the Project will be carrying on a business activity that is subject to these provisions. Information provided with the application for this Product Ruling indicates that a Grower who acquires the minimum participation of two Grovelots (although TSL reserves the right to accept applications for one Grovelot) in the Project is unlikely to pass one of the objective tests until the income year ended 30 June 2008. Growers who acquire more than the minimum participation in the Project may however, find that their activity meets one of the tests in an earlier income year.

110. Therefore, prior to this time, unless the Commissioner exercises an arm of the discretion under paragraphs 35-55(1)(a) or (b), the rule in subsection 35-10(2) will apply to defer to a future income year any loss that arises from the Grower's participation in the Project.

111. The first arm of the discretion in paragraph 35-55(1)(a) relates to 'special circumstances' applicable to the business activity, and has no relevance for the purposes of this Product Ruling. However, the second arm of the discretion in paragraph 35-55(1)(b) may be exercised by the Commissioner where:

- (i) the business activity has started to be carried on;
- (ii) because of its nature, it has not satisfied one of the objective tests; and
- (iii) there is an objective expectation that the business activity of an individual taxpayer will either pass one of the objective tests or produce a taxation profit within a period that is commercially viable for the industry concerned.

112. For a Grower who is an individual and who enters the Project during the year ended 30 June 2003, information provided with this Product Ruling indicates that a Grower who acquires the minimum participation of two Grovelots (although TSL reserves the right to accept applications for one Grovelot) in the Project is expected to be carrying on a business activity that will either pass one of the

Page 32 of 38

Product Ruling

PR 2002/121

objective tests, or produce a taxation profit, for the year ended 30 June 2006. The Commissioner will decide for such a Grower that it would be reasonable to exercise the second arm of the discretion until the year ended 30 June 2005.

Product Ruling

Page 33 of 38

PR 2002/121

113. This Product Ruling is issued on a prospective basis (i.e., before an individual Grower's business activity starts to be carried on). The Project, however, may fail to be carried on during the income years specified above (see paragraph 53), in the manner described in the Arrangement (see paragraphs 14 to 37). If so, this Ruling, and specifically the decision in relation to paragraph 35-55(1)(b), that it would be unreasonable that the loss deferral rule in subsection 35-10(2) not apply, may be affected, because the Ruling no longer applies (see paragraph 35-55(1)(b) will apply in such changed circumstances.

114. In deciding that the second arm of the discretion in paragraph 35-55(1)(b) will be exercised on this conditional basis, the Commissioner has relied upon:

- the report of the independent Olive Grove Expert;
- the Put Option Agreement with Costa d'Oro srl, a major Italian olive oil distributor, under which Olivecorp Management Limited is entitled to require Costa d'Oro to purchase up to 4,500 metric tonnes of olive oil per annum during the first 19 years of the Project; and
- independent, objective, and generally available information relating to the olive industry.

#### Section 82KL – recouped expenditure

115. Section 82KL is a specific anti-avoidance provision that operates to deny an otherwise allowable deduction for certain expenditure incurred, but effectively recouped, by the taxpayer. Under subsection 82KL(1), a deduction for certain expenditure is disallowed where the sum of the 'additional benefit' plus the 'expected tax saving' in relation to that expenditure equals or exceeds the 'eligible relevant expenditure'.

116. 'Additional benefit' (see the definition of 'additional benefit' at subsection 82KH(1) and paragraph 82KH(1F)(b)) is, broadly speaking, a benefit received that is additional to the benefit for which the expenditure is ostensibly incurred. The 'expected tax saving' is essentially the tax saved if a deduction is allowed for the relevant expenditure.

Product Ruling **PR 2002/121**Product Ruling

Page 34 of 38

117. Section 82KL's operation depends, among other things, on the identification of 'additional benefit(s)'. Here, there may be a loan provided to the Grower. The loan will be provided on a full recourse basis, and on commercial terms. Insufficient 'additional benefits' will be provided in respect of this Project, to trigger the application of section 82KL. It will not apply to deny the deductions otherwise allowable under section 8-1.

#### Part IVA - general anti-avoidance provisions

118. For Part IVA to apply there must be a 'scheme' (section 177A), a 'tax benefit' (section 177C) and a dominant purpose of entering into the scheme to obtain a tax benefit (section 177D).

119. The 2002 Timbercorp Olives Project – Supplementary Prospectus will be a 'scheme'. A Grower will obtain a 'tax benefit' from entering into the scheme, in the form of tax deductions for the amounts detailed at paragraphs 46 and 52, that would not have been obtained but for the scheme. However, it is not possible to conclude the scheme will be entered into or carried out with the dominant purpose of obtaining this tax benefit.

120. Growers to whom this Ruling applies intend to stay in the scheme for its full term and derive assessable income from the harvesting and sale of the olives and olive oil produce. There are no facts that would suggest that Growers have the opportunity of obtaining a tax advantage other than the tax advantages identified in this Ruling. There is no non-recourse financing or round robin characteristics, and no indication that the parties are not dealing at arm's length or, if any parties are not dealing at arm's length, that any adverse tax consequences result. Further, having regard to the factors to be considered under paragraph 177D(b) it cannot be concluded, on the information available, that participants will enter into the scheme for the dominant purpose of obtaining a tax benefit.

### Example

#### **Example – Entitlement to GST input tax credits**

121. Susan, who is a sole trader and registered for GST, contracts with a manager to manage her viticulture business. Her manager is registered for GST and charges her a management fee payable every six months in advance. On 1 December 2001 Susan receives a valid tax invoice from her manager requesting payment of a management fee in advance, and also requesting payment for an improvement in the connection of electricity for her vineyard that she contracted him to carry out. The tax invoice includes the following details:

| Management fee for period 1/1/2002 to 30/6/2002    | \$4,400*         |
|----------------------------------------------------|------------------|
| Carrying out of upgrade of power for your vineyard |                  |
| as quoted                                          | <u>\$2,200</u> * |
| Total due and payable by 1 January 2002            | <u>\$6 600</u>   |
| (includes GST of \$600)                            |                  |

\*Taxable supply

Susan pays the invoice by the due date and calculates her input tax credit on the management fee (to be claimed through her Business Activity Statement) as:

#### $1/11 \ge 4400 = 400$ .

Hence her outgoing for the management fee is effectively \$4400 *less* \$400, or \$4000.

Similarly, Susan calculates her input tax credit on the connection of electricity as:

$$1/11 \ge 2200 = 200$$
.

Hence her outgoing for the power upgrade is effectively \$2,200 *less* \$200, or \$2,000.

In preparing her income tax return for the year ended 30 June 2002, Susan is aware that the management fee is deductible in the year incurred. She calculates her management fee deduction as \$4,000 (not \$4,400).

Susan is aware that the electricity upgrade is deductible 10% per year over a 10 year period. She calculates her deduction for the power upgrade as \$200 (one tenth of \$2,000 only, not one tenth of \$2,200).
