Appendix – Explanation

❶ *This Explanation is provided as information to help you understand how the Commissioner's view has been reached. It does not form part of the binding public ruling.*

When the minimum holding period ends

21. One of the conditions which allowed you to reduce the amount included in your assessable income when you acquired the TESP Shares was that the Plan Rules restricted the shares being disposed of within the minimum holding period of 3 years or when you ceased employment with the Carbon Revolution Group (sections 83A-35 and 83A-45).

22. However, the Commissioner can allow the minimum holding period of 3 years to end earlier, if the Commissioner is satisfied that:

- Carbon intended that the requirements as set out in subsection 83A-45(4) would apply to the TESP Shares during the 3 years (subparagraph 83A-45(5)(a)(i)), and
- at the earlier time that the Commissioner allows, all Carbon shares were disposed of under a particular scheme (subparagraph 83A-45(5)(a)(ii)).

23. The Commissioner is satisfied that the Plan Rules prevented employees from disposing of the TESP Shares during the 3 years after the shares were acquired.

24. On 3 November 2023, all Carbon shares, including the TESP Shares, were disposed of under the Transaction.

25. Therefore, the Commissioner is satisfied that the requirements of subparagraphs 83A-45(5)(a)(i) and (ii) are met and will allow the minimum holding period to end at the earlier time of 3 November 2023.

26. Consequently, you remain entitled to reduce the amount included in your assessable income in accordance with section 83A-35.
