Ruling

Capital gains tax consequences

Demerger relief is not available

7. The in specie distribution of shares in ISXFEU by SCP to its shareholders does not qualify as a 'demerger' as defined in subsection 125-70(1). This means that demerger relief (being demerger roll-over under Division 125) is not available for the transfer of shares.

CGT event G1

8. CGT event G1 happened when SCP made a return of capital to you in respect of the SCP shares you owned on the Record Date (section 104-135).

9. You will make a capital gain from CGT event G1 happening if the return of capital (4.76c) is more than the cost base of the SCP share. The capital gain is equal to the amount of the excess. No capital loss can be made from CGT event G1 (subsection 104-135(3)).

10. If you do not make a capital gain from CGT event G1, you reduce the cost base and reduced cost base of each of your SCP shares by 4.76c (subsection 104-135(4)).

Discount capital gain

11. You can treat a capital gain made when CGT event G1 happened as a discount capital gain if you acquired your SCP shares at least 12 months before the Implementation Date (subsection 115-25(1)), provided the other conditions in Subdivision 115-A are satisfied.

Cost base and reduced cost base of your ISX Financial EU Plc shares

12. The first element of the cost base and reduced cost base of each ISXFEU share you acquired is 47.6c (subsections 110-25(2) and 110-55(2)).

Status: **legally binding**

Acquisition date of your ISX Financial EU Plc shares

13. You are taken to have acquired your ISXFEU shares on the Implementation Date (table event number A1 (case 1) of subsection 109-5(2)).

Foreign resident shareholders of Southern Cross Payments Ltd shares

14. If you are a foreign resident, any capital gain you make from CGT event G1 is disregarded unless your SCP share is taxable Australian property (section 855-10).

15. Your SCP share is taxable Australian property if it:

- was used by you at any time in carrying on a business through a permanent establishment in Australia (table item 3 of section 855-15), or
- is a CGT asset that is covered by subsection 104-165(3) (choosing to disregard a capital gain or capital loss on ceasing to be an Australian resident) (table item 5 of section 855-15)).

Not an assessable dividend

16. No part of the return of capital will be included in your assessable income under subsection 44(1). This is because all the value of the ISXFEU shares was debited to the share capital account of SCP, meaning that it is not a 'dividend' under subsection 6(1).

Specific anti-avoidance provisions do not apply to deem an assessable dividend

17. The Commissioner will not make a determination under subsection 45A(2) that section 45C applies in relation to the whole, or a part, of the capital benefits provided to you by the transfer of ISXFEU shares on the Implementation Date. This is because SCP did not stream the provision of capital benefits to its shareholders as required by subsection 45A(1). Therefore, you will not include any part of the amount of the capital benefit in your assessable income under subsection 44(1).

18. The Commissioner will not make a determination under paragraph 45B(3)(b) that section 45C applies to the whole, or any part, of the capital benefit provided to you by the transfer of ISXFEU shares on the Implementation Date. This is because the purpose condition in paragraph 45B(2)(c) was not satisfied. Therefore, you will not include any part of the amount of the capital benefit in your assessable income under subsection 44(1).
