

TR 94/D29 - Income tax: list of points in isolated areas for zone rebate purposes

 This cover sheet is provided for information only. It does not form part of *TR 94/D29 - Income tax: list of points in isolated areas for zone rebate purposes*

This document has been finalised by TR 94/28.

Draft Taxation Ruling

Income tax: list of points in isolated areas for zone rebate purposes

other Rulings on this topic

contents	para
What this Ruling is about	1
Ruling	7
Date of Effect	8

Draft Taxation Rulings (DTRs) represent the preliminary, though considered, views of the Australian Taxation Office.

DTRs may not be relied on by taxation officers, taxpayers and practitioners. It is only final Taxation Rulings which represent authoritative statements by the Australian Taxation Office of its stance on the particular matters covered in the Ruling.

What this Ruling is about

1. Section 79A of the *Income Tax Assessment Act 1936* provides for a rebate of tax for individual taxpayers who reside or stay in certain areas of Australia. The rebate is in recognition of uncongenial climatic conditions, isolation and the high cost of living encountered by residents of these areas in comparison with the rest of Australia. The areas are divided into two zones - Zone A and Zone B.
2. The boundaries of the zones are described in Parts I and II of Schedule 2 of the Act. Within each zone there are two areas - a "special area" which, broadly speaking, is a particularly isolated area within the zone, and an "ordinary area" which is the rest of the zone. Taxpayers living in a special area within a zone are entitled to a larger rebate than residents of the ordinary area of the zone.
3. This Ruling provides an alphabetical list of points that fall within Zone A and Zone B. Points include towns, islands, homesteads, outstations, mine sites and certain aboriginal communities. Points in the special area in Zone A are marked X in the list and points in the special area in Zone B are marked Y.
4. Although the list is intended to be as complete as possible it is recognised there may be localities which are not mentioned in it. Reference to nearby localities should enable a decision to be made in respect of any locality not specifically mentioned in the list.
5. This Ruling does not provide guidelines to assist in determining an individual taxpayer's eligibility for a zone rebate under section 79A. These guidelines are contained in Draft Taxation Ruling TR 94/D28 That Draft Taxation Ruling explains:

- (i) in what circumstances a person resides in a zone area;

TR 94/D29

- (ii) the factors to be considered in determining whether a point falls within a special area in either Zone A or Zone B including:
- the shortest practicable surface route test in subsection 79A(3D); and
 - the adjacent or close proximity test in subsection 79A(3E); and
- (iii) how the rebate is calculated, and the circumstances in which the Commissioner will exercise his discretion, for the purposes of paragraph 79A(2)(f).

6. The list supersedes all previous lists, and in particular consolidates IT 2357, IT 2418, IT 2454, and IT 2633. These Income Tax Rulings are now withdrawn. The list also includes a small number of points that have been determined to fall within the special areas of Zone A and Zone B. These points have not appeared in the previous Rulings that have issued.

Ruling

7. A list of points in all States and Territories of Australia that fall within Zone A and Zone B follows. Points in Zone A and Zone B are marked A and B respectively. Points in the special area in Zone A are marked X, while points in the special area in Zone B are marked Y.

Date of effect

8. This Ruling applies consistently with the legislation as it stood to years commencing both before and after its date of issue. However, the Ruling does not apply to taxpayers to the extent that it conflicts with the terms of a settlement of a dispute agreed to before the date of issue of the Ruling (see paragraphs 21 and 22 of Taxation Ruling TR 92/20).
