Circumstances where the requirement for an adjustment note does not apply

3. The circumstance set out in the following paragraphs is the circumstance of a kind in which the requirement for an adjustment note under subsection 29-20(3) of the Act does not apply.
4. A Member of American Express International Inc. will not be required to hold an adjustment note for a decreasing adjustment arising from an adjustment event relating to a creditable acquisition purchased with the Corporate Card in order to attribute, to a tax period, an adjustment to an input tax credit previously attributed on the acquisition, provided that at the time the Member gives its GST return/Business Activity Statement ("BAS") for the tax period to the Commissioner:

- (a) The Member holds a Corporate Card Statement produced by American Express International Inc. that includes the following details:
 - (i) The Member's name;
 - (ii) The name(s) of the person(s) who uses the Corporate Card to purchase the creditable acquisition(s) to which the adjustment relates;
 - (iii) The Member's Australian Business Number ('ABN') or address; and
 - (iv) For each acquisition for which the Member may adjust the amount of input tax credit previously attributed, the Corporate Card Statement has:
 - the date the Member facilitated the adjustment;
 - the supplier's name;
 - the supplier's ABN;
 - the supplier's Branch Registration Number (where applicable);
 - the difference between the price of the supply or supplies before the adjustment event and the new price of the supply or supplies subsequent to the adjustment being made;
 - a brief explanation of the reason for the adjustment, for example, "discount", "refund", "rebate", "return" or a code by which the reason is readily ascertained, such as REF for a refund;
 - the amount of the adjustment to the GST payable or a statement to the effect that the difference in the price of the taxable supply or supplies includes GST;
 - (b) The Member has an effectively regulated corporate policy for making adjustments for expenditure on the Corporate Card that is of a private or domestic nature and was not made in connection with carrying on the Member's enterprise;
 - (c) The Member has supplementary documentation supporting each adjustment on the Corporate Card Statement that has a private or domestic component and the documentary evidence clearly identifies the creditable and non-creditable components of the adjustment; and
 - (d) American Express International Inc. meets the conditions set out in paragraph 5 and 6 below.
5. American Express International Inc. must provide the date each adjustment on the statement was made.
 6. Where all the information required on the statement is not provided by the merchant to American Express International Inc., the latter may, until 30 June 2006, separately obtain the supplier's ABN and GST registration status and then calculate the amount of GST on the adjustment provided American Express International Inc.:
 - (a) has obtained a signed statement from each merchant that states:
 - (i) the merchant's ABN and Branch Registration Number (where applicable);

- (ii) whether or not the merchant is registered for GST;
 - (iii) the type of supply or supplies (i.e., taxable, GST-free and/or input taxed) the merchant provides;
 - (iv) where the merchant only provides taxable supplies, whether or not GST is calculated at 1/11th of the price for all the taxable supplies the merchant provides; and
 - (v) provides American Express International Inc. with an undertaking that it will be notified –
 - when the merchant ceases to be registered for GST; or
 - when the merchant ceases to make only taxable supplies where the GST is calculated at 1/11th of the price;
 - (b) retains the signed statement for at least 5 years after the merchant ceases its association with American Express International Inc.;
 - (c) clearly identifies each adjustment in the statement that may relate to a GST-free, input taxed or mixed supply;
 - (d) clearly identifies each adjustment relating to a supply where GST may not be 1/11th of the price;
 - (e) where an adjustment has been identified as relating to a supply that may be a GST-free, input taxed or a supply where GST may not be 1/11th of the price, advises the Member to obtain an adjustment note before attributing an adjustment to an input tax credit to a tax period; and
 - (f) where American Express International Inc. has obtained information that the merchant is not registered, or ceases to be registered for GST, American Express International Inc. must not calculate an amount of GST for adjustments from that merchant. Instead, American Express International Inc. must state that the amount of GST included in the adjustment is \$nil.
7. Notwithstanding the absence of a brief explanation of the reason for the adjustment, the statement will be considered as satisfying the requirements of paragraph 4(a) until 30 June 2006.

Situations where an adjustment note is still required

8. The Member will still need to obtain an adjustment note before attributing an adjustment to a tax period for an adjustment on the Corporate Card Statement where:
- (a) the Corporate Card Statement indicates that the adjustment relates to a supply that may be a mixed supply or a taxable supply where GST is not 1/11th of the price; or
 - (b) where there is an error on the Corporate Card Statement in relation to the adjustment.
