Access to registered data and third party data through the register may be provided subject to conditions, including conditions about the subsequent use of the data. Damages may be available (under section 271) in respect of a contravention of conditions of access.

The Registrar may arrange with a third party (prescribed by the regulations) under this Part for the provision of access to non-registered data, held by the third party, through the register (as a portal).

For example, the Registrar may arrange with a prescribed third party to provide users of the register with data held by the third

party that relates to motor vehicles. As a result, third party data concerning a motor vehicle may be provided on a verification statement or search result that relates to that vehicle, whether or not the data is specifically requested.

- (3) **Third party data conditions** includes, but is not limited to, conditions relating to the use of the third party data.
