The object of this Subdivision is to encourage new investment in small Australian innovation companies with high-growth potential by providing qualifying investors with a tax offset and a modified CGT treatment.

360-15 Entitlement to the tax offset

General case

- (1) You are entitled to a *tax offset for an income year if:
- (a) you are none of the following:
 - (i) a trust or a partnership;
 - (ii) a *widely held company or a *100% subsidiary of a widely held company; and
 - (b) at a particular time during the income year, a company issues you with *equity interests that are *shares in the company; and
 - (c) subsection 360-40(1) (about early stage innovation companies) applies to the company immediately after that time; and
 - (d) neither you nor the company is an *affiliate of each other at that time; and
 - (e) the issue of those shares is not an *acquisition of *ESS interests under an *employee share scheme; and

- (f) immediately after that time, you do not hold more than 30% of the equity interests in the company or in an entity *connected with the company.

Members of trusts or partnerships

- (2) A *member of a trust or partnership at the end of an income year is entitled to a *tax offset for the income year if the trust or partnership would be entitled to a tax offset, under subsection (1), for the income year if the trust or partnership were an individual.

Trustees

- (3) A trustee of a trust is entitled to a *tax offset for an income year if:
 - (a) the trustee would be entitled to a tax offset, under subsection (1), for the income year if the trustee were an individual; and
 - (b) the trustee is liable to be assessed or has been assessed, and is liable to pay *tax, on a share of, or all or a part of, the trust's *net income under section 98, 99 or 99A of the *Income Tax Assessment Act 1936* for the income year.

360-20 Limited entitlement for certain kinds of investors

- (1) You do not satisfy paragraph 360-15(1)(b) if:
 - (a) for each offer resulting in *equity interests that are *shares in the company being issued to you during the income year, none of subsections 708(8), (10) or (11) of the *Corporations Act 2001* removed the need for a disclosure document; and
 - (b) a total of more than \$50,000 was paid for the issue to you of the shares resulting from all of those offers.
- (2) For the purposes of this section, assume that Chapter 6D of the *Corporations Act 2001* applies to those offers.

360-25 Amount of the tax offset—general case

- (1) If subsection 360-15(1) applies, the amount of the *tax offset is 20% of the total amount paid for the *shares to which paragraph 360-15(1)(b) applies.

Note: If subsection 360-15(1) applies for shares issued to you at several times during the income year, then this subsection uses the total amount paid for all of those shares.

- (2) However, reduce this amount to the extent necessary to ensure that the sum of the following does not exceed \$200,000:
 - (a) the sum of the *tax offsets under this Subdivision for the income year for which you and your *affiliates (if any) are entitled;
 - (b) the sum of the tax offsets under this Subdivision that you and your affiliates (if any) carry forward to the income year.

360-30 Amount of the tax offset—members of trusts or partnerships

- (1) If subsection 360-15(2) applies, the amount of the *member's *tax offset for the income year is as follows:

Determined share of notional tax offset × Notional tax offset amount

where:

determined share of notional tax offset is the percentage determined under subsection (2) for the *member.

notional tax offset amount is what would, under section 360-25, have been the amount of the trust's or partnership's *tax offset (the ***notional tax offset***) if the trust or partnership had been an individual.

- (2) The trustee or partnership may determine the percentage of the notional tax offset that is the *member's share of the notional tax offset.
- (3) If the *member would be entitled to a fixed proportion of any *capital gain from a *disposal were the disposal to happen in relation to the trust or partnership at the end of the income year, then:
 - (a) the percentage determined under subsection (2) must be equivalent to that fixed proportion; and
 - (b) a determination of any other percentage has no effect.
- (4) The trustee or partnership must give the *member written notice of the determination. The notice:

- (a) must enable the member to work out the amount of the member's *tax offset by including enough information to enable the member to work out the member's share of the notional tax offset; and
 - (b) must be given to the member within 3 months after the end of the income year, or within such further time as the Commissioner allows.
- (5) The sum of all the percentages determined under subsection (2) in relation to the *members of the trust or partnership must not exceed 100%.

360-35 Amount of the tax offset—trustees

If subsection 360-15(3) applies, the amount of the *tax offset is the difference between:

- (a) what would, under section 360-25, have been the amount of the tax offset to which the trustee would have been entitled if the trustee had been an individual; and
- (b) if *members of the trust are entitled to tax offsets under subsection 360-15(2) arising from the same *shares to which the trustee's entitlement arises under subsection 360-15(3)—the sum of the amounts, under section 360-30, of those tax offsets.

360-40 Early stage innovation companies

- (1) This subsection applies to a company at a particular time (the *test time*) in an income year (the *current year*) if:
- (a) the company was:
 - (i) incorporated in Australia within the last 3 income years (the latest being the current year); or
 - (ii) incorporated in Australia within the last 6 income years (the latest being the current year), and across the last 3 of those income years it and its *100% subsidiaries (if any) incurred total expenses of \$1 million or less; or
 - (iii) registered in the *Australian Business Register within the last 3 income years (the latest being the current year); and

- (b) the company and its 100% subsidiaries (if any) incurred total expenses of \$1 million or less in the income year before the current year; and
 - (c) the company and its 100% subsidiaries (if any) had a total assessable income of \$200,000 or less in the income year before the current year; and
 - (d) at the test time, none of the company's *equity interests are listed for quotation in the official list of any stock exchange in Australia or a foreign country; and
 - (e) at the test time, the company has at least 100 points under section 360-45, or:
 - (i) the company is genuinely focussed on developing for commercialisation one or more new, or significantly improved, products, processes, services or marketing or organisational methods; and
 - (ii) the business relating to those products, processes, services or methods has a high growth potential; and
 - (iii) the company can demonstrate that it has the potential to be able to successfully scale that business; and
 - (iv) the company can demonstrate that it has the potential to be able to address a broader than local market, including global markets, through that business; and
 - (v) the company can demonstrate that it has the potential to be able to have competitive advantages for that business.
- (2) For the purposes of paragraph (1)(c), disregard any Accelerating Commercialisation Grant under the program administered by the Commonwealth known as the Entrepreneurs' Programme.
- (3) Subparagraphs (1)(e)(i) to (v) cannot be satisfied for:
- (a) a product, process, service or method; or
 - (b) an improvement to a product, process, service or method;
- that is of a kind prescribed by regulations made for the purposes of this subsection.
- (4) Subsection (1) does not apply to a company if, before the test time, the company engaged in an activity of a kind prescribed by regulations made for the purposes of this subsection.

Schedule 1 Tax incentives for early stage investors

Part 1 Main amendments

360-45 100 point innovation test

- (1) At a particular time (the *test time*) in an income year (the *current year*), a company has the points mentioned in an item of the following table if that item applies to the company at that time.

Innovation points potentially available at that time in the current year		
	Column 1	Column 2

Innovation points potentially available at that time in the current year		
	Column 1	Column 2
Item	Points	Innovation criteria
		(c) the company issued those shares at least one day before the test time.
6	50	(a) the company has rights (including equitable rights) under a *Commonwealth law as: (i) the patentee, or a licensee, of a standard patent; or (ii) the owner, or a licensee, of a plant breeder's right; granted in Australia within the last 5 years (ending at the test time); or (b) the company has equivalent rights under a *foreign law.
7	25	Unless item 6 applies to the company at the test time: (a) the company has rights (including equitable rights) under a *Commonwealth law as: (i) the patentee, or a licensee, of an innovation patent granted and certified in Australia; or (ii) the owner, or a licensee, of a registered design registered in Australia; within the last 5 years (ending at the test time); or (b) the company has equivalent rights under a *foreign law.

(2) At the test time, the company also has the points prescribed by regulations made for the purposes of this subsection if the prescribed innovation criteria for those points apply to the company at that time.

360-50 Modified CGT treatment

- (1) This section applies if the issuing of a *share to an entity gives rise to an entitlement to a *tax offset under this Subdivision.

Note: This section applies to any share that gives rise to the entitlement, regardless of whether subsection 360-25(2) reduces the amount of the tax offset.

- (2) The entity is taken to hold the *share on capital account.
- (3) The entity must disregard any *capital loss it makes from any *CGT event happening in relation to the *share if:
- (a) the entity has continuously held the share since its issue; and
 - (b) the CGT event happens before the tenth anniversary of the issue of the share.
- (4) The entity may disregard any *capital gain it makes from any *CGT event happening in relation to the *share if:
- (a) the entity has continuously held the share since its issue; and
 - (b) the CGT event happens on or after the first anniversary, but before the tenth anniversary, of the issue of the share.
- (5) If the entity has continuously held the *share since its issue, the *first element of its *cost base and *reduced cost base becomes, on the tenth anniversary of its issue, its *market value on that anniversary.

360-55 Modified CGT treatment—partnerships

- (1) The purpose of this section is to ensure that the modifications made by section 360-50 apply to each partner in a partnership in a case where the partnership is the entity that is issued with the *share mentioned in subsection 360-50(1).
- (2) In such a case, subsections 360-50(2) to (4) apply as if:
- (a) the first reference in those subsections to the entity were a reference to each partner in the partnership; and
 - (b) the first reference in those subsections to the *share were a reference to the partner's interest in the share.

Note: The references to the entity and the share in the paragraphs of subsections 360-50(3) and (4) continue to apply unchanged.

- (3) In such a case, treat subsection 360-50(5) as if it read as follows:
“If the partnership has continuously held the *share since its issue, on the tenth anniversary of its issue:
- (a) the *first element of the *cost base for a partner’s interest in the share becomes so much of the share’s *market value on that anniversary as is calculated by reference to the partnership agreement, or partnership law if there is no agreement; and
 - (b) the *first element of the *reduced cost base is worked out similarly.”.

360-60 Modified CGT treatment—not affected by certain roll-overs

- (1) The purpose of this section is to ensure that the modifications made by section 360-50 are not affected merely because of one or more *same-asset roll-overs or *replacement-asset roll-overs (other than roll-overs under Division 122 or Subdivision 124-M).
- (2) If, apart from those roll-overs, the entity (the *original entity*) mentioned in subsection 360-50(1) would continue to hold the *share (the *original share*) mentioned in that subsection, then subsections 360-50(2) to (5) apply as if:
- (a) the following asset were the original share:
 - (i) if the last roll-over is a *same-asset roll-over—the asset for the roll-over;
 - (ii) if the last roll-over is a *replacement-asset roll-over—the replacement asset for the roll-over; and
- Note: The asset for subparagraph (i) will be the original share unless a replacement-asset roll-over happened beforehand.
- (b) that asset was issued when the original share was issued; and
 - (c) the entity that *acquired that asset for the roll-over had continuously held that asset since the original share was issued; and
 - (d) that entity were the original entity; and
 - (e) in a case where that entity is a partnership—paragraphs (a) to (d) modify subsections 360-50(2) to (5) as they apply with the modifications in section 360-55; and
 - (f) in a case where that entity is not a partnership but the entity that owned the original asset for the roll-over is—

paragraphs (a) to (d) modify subsections 360-50(2) to (5) as they apply without the modifications in section 360-55.

Note: A roll-over under Division 122 (about wholly-owned companies) or Subdivision 124-M (about scrip for scrip roll-overs) will stop the modified CGT treatment under section 360-50 from continuing to apply.

360-65 Separate modified CGT treatment for roll-overs about wholly-owned companies or scrip for scrip roll-overs

(1) If:

(a) a *share mentioned in subsection 360-50(1) has been continuously held by the entity mentioned in that subsection; and

(b) then:

(i) the share, or interests in the share, are *disposed of in a way that gives rise to a trigger event (see section 122-15 or 122-125) for a roll-over under Division 122; or

(ii) the share becomes the original interest (see paragraph 124-780(1)(a)) for a roll-over under Subdivision 124-M; and

(c) the roll-over happens on or after the first anniversary, but before the tenth anniversary, of the issue of the share;

the *first element of the *cost base and *reduced cost base of the share just before the roll-over is taken to be its *market value at that time.

Note: This subsection is a separate modified CGT treatment, and not a continuation of the modifications made by section 360-50.

(2) If:

(a) an asset mentioned in paragraph 360-60(2)(a) for a roll-over has been continuously held by the entity that *acquired that asset for that roll-over; and

(b) then:

(i) that asset, or interests in that asset, are *disposed of in a way that gives rise to a trigger event (see section 122-15 or 122-125) for a roll-over under Division 122; or

(ii) that asset becomes the original interest (see paragraph 124-780(1)(a)) for a roll-over under Subdivision 124-M; and

(c) the later roll-over happens on or after the first anniversary, but before the tenth anniversary, of the issue of the original share (see subsection 360-60(2) for the earlier roll-over; the *first element of the *cost base and *reduced cost base of that asset just before the later roll-over is taken to be its *market value at that time.

Note: This subsection is a separate modified CGT treatment, and not a continuation of the modifications made by section 360-50.

Operative provisions

61-755 Object of this Subdivision

The object of this Subdivision is to encourage new investment in early stage venture capital by providing investors with a *tax offset to reduce the effective cost of such investments.

61-760 Who is entitled to the ESVCLP tax offset

General case

- (1) A *limited partner of an *ESVCLP is entitled to a *tax offset for an income year if:
 - (a) the partner contributes to the ESVCLP during the income year; and
 - (b) the partner is not a trust or partnership.

Members of trusts or partnerships

- (2) A *member of a trust or partnership is entitled to a *tax offset for an income year if the trust or partnership would be entitled to a tax offset, under this section, for the income year if it were an individual.

Trustees

- (3) A trustee of a trust is entitled to a *tax offset for an income year if:
 - (a) the trust would be entitled to a tax offset, under this section, for the income year if it were an individual; and
 - (b) in a case where the trustee has determined percentages under subsection 61-770(2) in relation to the *members of the trust—the sum of those percentages is not 100%; and
 - (c) the trustee is liable to be assessed or has been assessed, and is liable to pay *tax, on a share of, or all or a part of, the trust's *net income under section 98, 99 or 99A of the *Income Tax Assessment Act 1936* for that income year.

61-765 Amount of the ESVCLP tax offset—general case

- (1) If subsection 61-760(1) applies, the amount of the *tax offset for the income year is 10% of the lesser of:
 - (a) the sum of the amounts the partner contributes to the *ESVCLP during the income year, reduced by any amounts excluded under subsection (2); and
 - (b) the amount (the *investment related amount*) worked out under subsection (3).
- (2) The following amounts are excluded for the purposes of paragraph (1)(a) in relation to the income year:
 - (a) any parts of a contribution the partner made to the *ESVCLP that the ESVCLP is, or will become, obliged to repay to the partner, whether or not:
 - (i) the obligation arises during the income year; or
 - (ii) the obligation arises only when the partner requests repayment;
 - (b) any parts of a contribution the partner made to the ESVCLP that, during the income year, are repaid to the partner within 12 months after the contribution was made;
 - (c) any parts of a contribution the partner made to the ESVCLP to the extent that they comprise a commitment to provide money or property in the future.
- (3) Work out the investment related amount as follows:

Partner's share × Sum of eligible venture capital investments

where:

partner's share is the partner's share of the capital of the *ESVCLP at the end of the income year, expressed as a percentage of the entire capital of the ESVCLP.

sum of eligible venture capital investments is the sum of:

- (a) all the amounts of the *eligible venture capital investments made by the *ESVCLP during the period starting at the start of the income year and ending 2 months after the end of the income year; and
- (b) all the incidental costs, incurred during that period, of making those investments; and

- (c) all the administrative expenses, incurred during that period, associated with those investments.
- (4) For the purposes of paragraph (a) of the definition of *sum of eligible venture capital investments* in subsection (3), disregard the amounts of any *eligible venture capital investments that were taken into account in working out the amount of a *tax offset under this Subdivision for a preceding income year.

61-770 Amount of the ESVCLP tax offset—members of trusts or partnerships

- (1) If subsection 61-760(2) applies, the amount of the *member's *tax offset for the income year is as follows:

Determined share of notional tax offset × Notional tax offset amount
where:

determined share of notional tax offset is the percentage determined under subsection (2) for the *member.

notional tax offset amount is what would, under section 61-765, have been the amount of the trust's or partnership's *tax offset (the *notional tax offset*) if the trust or partnership had been an individual.

- (2) The trustee or partnership may determine the percentage of the notional tax offset that is the *member's share of the notional tax offset.
- (3) If, under the terms and conditions under which the trust or partnership operates, the *member would be entitled to a fixed proportion of any *capital gain from a *disposal, were the disposal to happen in relation to trust or partnership, of investments made as a result of contributions that gave rise to the notional tax offset:
- (a) the percentage determined under subsection (2) must be equivalent to that fixed proportion at the end of the income year to which the notional tax offset relates; and
- (b) a determination of any other percentage has no effect.
- (4) The trustee or partnership must give the *member written notice of the determination. The notice:
-

- (a) must enable the member to work out the amount of the member's *tax offset by including enough information to enable the member to work out the member's share of the notional tax offset; and
 - (b) must be given to the member within 3 months after the end of the income year, or within such further time as the Commissioner allows.
- (5) The sum of all the percentages determined under subsection (2) in relation to the *members of the trust or partnership must not exceed 100%.

61-775 Amount of the ESVCLP tax offset—trustees

If subsection 61-760(3) applies, the amount of the *tax offset for the income year is the difference between:

- (a) what would, under section 61-765, have been the amount of the tax offset to which the trust would have been entitled if it had been an individual; and
- (b) if *members of the trust are entitled to tax offsets under subsection 61-760(2) arising from the same contributions from which the trustee's entitlement arises under subsection 61-760(3)—the sum of the amounts, under section 61-770, of those tax offsets.

5 Contributions made to ESVCLPs in previous income years

Subdivision 61-P of the *Income Tax Assessment Act 1997* as added by this Part, and item 4 of this Part, apply in relation to the first income year starting on or after 1 July 2016 (the *initial income year*) as if:

- (a) any contribution that a limited partner of an ESVCLP made to the ESVCLP during an earlier income year were made during the initial income year; and

7 Application of amendment

The amendment made by this Part applies in relation to registration of partnerships under the *Venture Capital Act 2002* as ESVCLPs on or after 1 July 2016 (including registrations arising from applications made before that day).

Part 3—Removing the ESVCLP divestiture registration requirement

Income Tax Assessment Act 1997

8 After subsection 51-54(1)

Insert:

(1A) An entity's share of any gain or profit made:

- (a) by an *ESVCLP that is *unconditionally registered; and
- (b) from the disposal or other realisation of an *eligible venture capital investment;

is exempt from income tax to the extent that, were that disposal or other realisation to be a *disposal of a *CGT asset, the equivalent *capital gain arising from the *CGT event would be disregarded because of a partial exemption from the CGT event under section 118-408.

9 Subparagraph 118-407(1)(d)(iv)

Omit “, and met the *divestiture registration requirement”.

10 Subsection 118-407(1) (note)

Omit “Note”, substitute “Note 1”.

11 At the end of subsection 118-407(1)

Note 2: This section does not apply if you get a partial exemption in relation to a CGT event under section 118-408.

12 Subsection 118-407(5)

13 After section 118-407

Insert:

118-408 Partial exemption for some capital gains otherwise fully exempt under section 118-407

- (a) apart from this section, all of your share in the capital gain from the CGT event relating to the investment would be disregarded under section 118-407; and
 - (b) at the end of an income year to which subsection (4) applies (a *valuation year*), the sum of the values of:
 - (i) the assets of the company or unit trust in which the investment is made; and
 - (ii) the assets of each other entity that is a *connected entity of the company or unit trust; exceeds \$250 million; and
 - (c) the CGT event happens after:
 - (i) if there is only one valuation year—the end of the period of 6 months after the end of that valuation year; or
 - (ii) if there is more than one valuation year—the end of the period of 6 months after the end of the earliest of those valuation years.
- (2) If subsection (1) applies, work out your *capital gain using the formula:

Normal capital gain – Valuation year capital gain

where:

normal capital gain is what your *capital gain from the *CGT event would be apart from section 118-407 and this section.

valuation year capital gain is the capital gain you would have made in relation to the *CGT event if the CGT event had happened:

- (a) if there is only one valuation year—at the end of the period of 6 months after the end of that valuation year; or
- (b) if there is more than one valuation year—at the end of the period of 6 months after the end of the earliest of those valuation years.

Schedule 2 Venture capital investment

Part 3 Removing the ESVCLP divestiture registration requirement

(3) Despite subsection (2), you are taken not to have a *capital gain, or a *capital loss, from the *CGT event if the amount worked out under the formula in that subsection would be less than zero.

(4) This subsection applies to any income year that:

- (a) precedes the income year in which the *CGT event happens; but
- (b) does not precede the income year in which the investment was made.

Note: There must always be at least one valuation year, because paragraph 118-407(1)(d) ensures the CGT event will not happen in the year the investment was made.

(5) Section 118-407 does not apply in relation to a *CGT event if this section applies in relation to the CGT event.
