### **Taxation Ruling**

Income tax: effective life of depreciating assets

### **Update of Taxation Ruling TR 2000/18**

#### **Preamble**

Taxation Ruling TR 2000/18 has been updated to reflect terms used in Division 40 i.e. references to depreciating asset have replaced references to plant where appropriate. A new paragraph has been inserted to make reference to the introduction of statutory caps for certain assets. In addition, minor changes have been made to make the ruling easier to read.

Set out below are the paragraphs that have been affected by the update.

#### **Omit the Ruling Heading:**

Income tax: Depreciation effective life

#### **and substitute:**

Income tax: Effective life of depreciating assets

#### **Omit para 4 and substitute:**

You may choose to use the Commissioner's determination of the effective life of a depreciating asset or you may make your own estimate (see section 40-95 of the Act). The explanation of the methodology used by the Commissioner in making determinations may assist taxpayers who choose to make their own estimate of effective life.

#### **Omit the second sentence in para 6 and substitute:**

If you were using an effective life from Taxation Ruling IT 2685 for the purpose of calculating your deduction for an asset under Division 42 of the Act you can continue to use that effective life for the purpose of calculating your deduction under Division 40 for the asset."

# TR 2000/18

**Omit para 8 and substitute:**

For plant:

- you entered into a contract to acquire,
- you otherwise acquired, or
- you started to construct,

before 11.45 am, by legal time in the Australian Capital Territory, on 21 September 1999, you may use the effective life for the plant set out in Taxation Ruling IT 2685 regardless of when you first use it or have it installed ready for use.

**Omit para 26 and substitute:**

How intensive an industry uses an asset may impact directly on the asset's effective life. To establish what is the industry norm, industry is consulted wherever possible.

**Omit from the third sentence of para 28:**

, from one or more of a variety of causes,

**Omit from the fourth sentence of para 28:**

we consider the industry norm

**and substitute:**

the industry norm is considered.

**Omit the additional space after “for” in the first sentence in para 37.**

**Omit the second and third sentences in para 39 and substitute:**

Clearly, unpredictable obsolescence cannot be taken into account when making an estimate of effective life. The Commissioner would only take obsolescence into account if it can be predicted with a high level of certainty across a majority of users.

**Omit from the first sentence in para 43:**

we can establish a general scrapping or abandonment practice

**and substitute:**

In the attached schedule they are included only in the asset list. Whilst some assets are included in both tables with the same effective life, this is the exception rather than the norm. Generally, an asset

# TR 2000/18

would be included in an industry list only if the Commissioner determined a different effective life for use in that industry.

**Before para 55 insert the heading:**

*New and Reviewed Items.*

**Omit para 55 and substitute:**

New and reviewed items have been marked with an asterisk (\*) in column 3 of **Tables A** and **B**.

Taxation Laws Amendment Bill (No. 4) 2002 has been introduced into Parliament. Schedule 4 of that Bill proposes the introduction of statutory caps on the Commissioner's determined effective life for certain assets. - assets for which there were previously statutory rates;  
and

In addition, the items marked with an asterisk in **Tables A** and **B** have been reviewed by an independent panel presently comprising a representative from CPA Australia, the Corporate Tax Association, The Treasury, The Australian Valuation Office and the Australian Taxation Office.

**Schedule**

As part of the ongoing review being undertaken by the ATO of the effective life of assets there will be periodic consolidations of Tables A, B and F to reflect changes.
